BIG DEAL IN MINING LAND.

BLUE & NUNN THE PURCHASERS.

Land Adjoins the "Nine Acres" on Which they Already Own the Mineral Rights.

We copy the following important item from the Dixon Journal:

"A discovery has been made a short distance from Dixon which is calculated to prove a great boon to the town. Black Jack zinc has been found cropping out from the branch banks, and on top of the ground, and everything indicates that the metal abounds in great quantities. The zinc is about 50 or 60 per cent. pure, and such ore is worth about \$25 per ton. Should this find prove what everything now indicates it will mean a great deal to Dixon and Webster county. At present the future looks exceedingly bright for Dixon, and we would not be surprised if in the near future Dixon should find herself in the midst of the biggest boom any Webster county town has ever had. It is known to many that we have more than one of as good mineral wells as the country affords, and many will testify to the health giving properties of this water.

thing progressing nicely; shaft 80 feet. Quite a nice little plant they have, and to see the large boulders of spar filled with lead makes one feel like "The reward is sent unto the faithful." This certainly is a fine property; and one of the kinds of places it takes to encourage that new railroad we need so badly.

The existence of a considerable tonnage of foreign lead in bond is made known by the statistics of the United States imports of merchandise during the fiscal year closing June 30, 1904. The heavy increase in the production of domestic lead has practically kept pace with the deliveries of metal to consumers, although during the recent Colorado troubles some foreign lead was used by domestic consumers. The total import of foreign lead during the past fiscal year aggregated 101,693 tons, as against imports of the preceding year of 105,852 tons. Naturally the greater portion of this lead imported came from Mexico, which shipped 99,254 tons to this country. British North American shipments aggregated 8,578 tons, while Europe furnished about 1,000 tons. Exports of foreign lead during the year just ended aggregated 85,897 tons, valued at \$39,711 per ton, the average import value per ton being \$33.17. Exports of domestic lead, including type and other manufactured products of lead aggregated \$538,020 as against a total value of exports the preceding year of \$452,702.—Lead and Zinc News.

The Columbia vein in the Crittenden Springs tract is already proven and mining people are beginning to realize it. The Columbia mill and the complete mining plant on the "Nine Acres" Maj Clement's mine (which, however, is said to be on a cross vein, and which, if true, makes it all the better), and then the Mountain Lead, Zinc, Fluor Spar Co's mine, which is capitalized at \$100,000, and it is building a road to get out to market with their product, all go to show that mining people are "on". Still investors go off to undeveloped fields where all is uncertainty. Ere many months the developments and actual shipment from this small scope will equal if not excel any in the entire district.

Surveyors were busy running lines and finding corners of the Tom Lanham farm near Crittenden Springs; also several small adjoining tracts, in all some 190 acres, lying south of the Tolu

We accept our part of the indirect punching of the Crittenden Press, recently given Hardin's papers for not helping the Press more in its endeavor at mining publicity. The Press must remember that what we have done has been done single handed and alone; we have only barely succeeded in getting our people interested while all the people of Crittenden county have helped the Press all along and from the start and this makes a big difference in the success of one's work.—Hardin

The mineral excitement is on the boom again in the hills south of town. Lewis Hamp sold fifty acres of land just across the line in Hardin county last week for seven thousand dollars. Lead and spar seem to be the minerals that are proving to be the most paying at present. That there is mineral in paying quality and quantity in the hills of Southern Illinois is without a doubt, and it is only question of a short time until this section will be the richest part of the State—Equality Ohio.

A process for making soft zinc has recently been patented in France. The process consists in making a succession of alloys of zinc and aluminum and aluminum and bismuth. The result is 90 per cent pure, yet soft and malleable.—Lead and Zinc News.

W. G. Archer and J. G. Delker, capitalists of Owensboro, owners of the Marion Beard mine in this county, were here Sunday, en route home, after an inspection of the property. They were in fine spirits and brought up some samples said to be the finest yet shown in this district.

Major Clement has started to work again on his shaft at the Bitter Apple mine on the Springs land, at the foot of the hill in front of the hotel. He says he intends going if necessary until he reaches the seat of the Russo-Japanese war.

Dr D. T. Macer and S. W. Little owners of Doneky farm, recently purchased of E. J. Hayward, were in the city this week and inspected their mining property while here.

Our Cave-in-Rock correspondent says:

A large barge loaded with machinery, lumber, implements, wagons, brick, lime, cement, etc., for the Cave-in-Rock Mining Company arrived on the 15th. C. A. Okerson is hauling it out to their mine with his large traction engine.

Our Sheridan correspondent sends the following:

Mining is still going on in full blast and new mines are being opened every week.

Last week Felix Cox resumed work on his farm and has encountered a fine vein of spar and lead.

Bob Yates has begun work at his old shaft with Doo Stations at the wheel.

A CRUEL JOKE.

A. D. Johnson need never look in this direction for a kind word. He has broken off the friendship that has existed between him and this paper for many years. He promised to send us a young eagle. He sent us what we thought was a young eagle, and after arranging a large cage for it, and feeding it juicy meat from Mr. Whitehead's shop, we invited a dozen gentlemen to call and see our rare bird. R. W. Gray, Tom Chester and R. E. Zimmerman said it was a young buzzard. We would not believe Mr. Johnson would perpetrate such a malicious joke, although we had heard of some of his night prowling, so we called in Henry Fisher, Tom Roberts, Will Clinton and others—asked their opinion of the kind of fowl we were harboring. They said our King of Birds was a young buzzard, and then we swore that we would tell we ever heard on the man who had played on our ignorance, and we now inform the public that A. D. Johnson has been known to rob bee trees in the dead of night, and if he does not apologise, we will tell whose bee tree he out.—Columbus Critic.

Johnson Bros. of Lola have been prospecting near the iron bridge near Deer creek on the Ditney road, and have struck a vein of blue spar so solid that blasting will be the only means of removal. They do not know the width of the vein, but at twenty feet the whole shaft seems perfectly solid in the bottom, and work had to be suspended until better preparations could be made. All this output is to be hauled over that new railroad we want. From Carverville to Marion would suit very well. We had the pleasure of visiting B. W. AMID THE FLAMES

Two Negro Fiends Meet Their Just Reward,

Statesboro, Ga., Aug. 17.—With clothing saturated with kerosene, writhing and twisting in their agony, screaming to heaven for the mercy that the mob would not show, Paul Reed and Will Cato, negroes, two of the principals in the dastardly murder and burning of Henry Hodges and wife and three of their children, six miles from Statesboro, three weeks ago, were burned at the stake yesterday.

At 1:21 o'clock a determined mob charged upon the court house, overpowering the military guard, secured Cato and Reed, who had been found guilty after a legal trial, and sentenced to be hanged, took them two miles from Statesboro and there executed the fearful penalty.

The forenoon passed quietly, the trial of Paul Reed, the ring-leader in the murder, being concluded and a verdict of guilty rendered. Sentence was imposed on both him and Will Cato, convicted the day before, and Sept. 9 was set for the day of execution.

Overpowering the military the mob secured the prisoners. Reed was taken down one stairway with a rope about his neck, and Cato down the other, both pleading for their lives. The crowd now numbered about 500. They dragged the men, shouting, along the road way leading to the Hodges homestead, where five members of the family had been murdered and burned, but the heat was so intense they halted.

The two negroes were made to sit down on a log, and being told they had but a few minutes to live both confessed their guilt. The crowd then moved across a field to a woodland, reaching which, one man climbed a tree with a rope.

"Burn them! Burn them!" was shouted.

Cato begged to be shot or hanged; some of the more humane wanted to grant his request, but they were in the minority. The rest wanted to visit the same death meted out to the five helpless victims.

With their backs to a large stump twelve feet high, the men were fastened with chains. Then a wagon loaded with pine wood was brought. The wood was piled about them and gallons of coal oil poured over them. The scene which followed beggars description. Just as the match was applied Reed was asked to confess.

"Yes, sir, I killed Mr. and Mrs. Hodges," he replied.

"Who killed the children?" he was asked.

"Handy Bell," came the reply, as the flames leaped upward, and further questioning was impossible.

As the flames leaped about the naked body of Reed, with his oil soaked skin, he twisted his head around in an endeavor to choke himself and evade the fearful torture. Only once did he complain. He said, "Lord have mercy!"

Cato screamed in agony and begged to be shot. His heavy hair, which was oil soaked, was almost the first thing the flames fastened on, and he screamed with agony, while the hemp rope became a coil of fire about his neck. A thrill of horror ran through the frames of the more timid. The rope was burned through before Cato died, and his head swung from side to side as he endeavored to avoid the flames. By efforts almost superhuman he managed to get under the locked chain. For only a few minutes was he visible to the crowd, before the great pile of fagots made a wall of fire which the wind whipped around Cato's side and hid him entirely from view.

Fred Reed was the first to exhibit unconsciousness, and was, perhaps, the first dead. Before the flames had progressed far up his body, his head sunk forward and many believed that the fire got into his lungs. As Cato's head swung to and fro some of the more excited members of the party commenced throwing lightwood knots at it.

As it was seen that the two men were dead the crowd commenced dispersing.

THAT NEW RAILROAD,

What has become of that road from Carrsville to Kuttawa, via Loh, Salem, etc.? Is it to die without an effort on the part of our citizens to revive it? At a time when a railroad was not even thought of by railroad people the citizens of Livingston and Crittenden began a united effort to make their wants known and what was the result? When we began talking and writing railroad the railroad people became interested and in a short time we had them in our midst. Of course we made a trade that did not prove successful; but how often do we make mistakes; and as there was no one to blame for that mistake we can't help it now. Yet we can put our shoulders to the wheel and push this work as we once before did, and I believe get the railroad without a doubt.

Now, to secure this we must first show the railroad companies that we have a traffic that will pay them. Has this been done? No, I think not. Well, some one says how shall we proceed to show up our country and what we have to ship. My plan would be to have a called meeting and try to have representatives from every neighborhood along the proposed line of railroad. At this meeting let these representatives have a memorandum of all the mines, the prospects where minerals are found, and in short a general summary of his country that would interest a railroad. When we get this and get plans arranged for a general meeting some day and impress upon all these parties who have either mines or prospects undeveloped, where a showing is good for a paying mine to attend. At this meeting we are presumed to have the interested element. Let us now appoint a committee of three or more to each division who are to make themselves thoroughly acquainted with the different properties. Now we will say we have all this done and our Secretary knows in every locality just who depend upon to show up that territory. Next, all being ready, let us invite an investigation and instead of one or two men trying to show up the country let each division have a special representative who knows where to go and what to say of his part of the country.

Let us have a few words from the old soldiers who worked so hard in our last railroad fight. Again, friends, we must remember that we have a great deal better show now than we had when we went down before.

Better Than Gold.

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. Boy Kills His Father.

Plattsburg, Mo., Aug. 15.—Lafayette W. J. Jones, a wealthy farmer living ten miles west of here, was shot and killed by his fifteen year old son Hugh, today because the latter was not allowed to drive the family horse. The boy, with a loaded shotgun, lay in wait till his father came along, when he fired on him. His father fell to the ground. Young Jones then reloaded the gun and fired again at the prostrate form of his father. The boy was arrested.

A CAMPAIGN LIE NAILED,

Roanoke, Va., Aug. 18.—The following letter from Hon Henry G. Davis, the Democratic candidate for Vice President, has been made public here:

Elkins, W. Va., Aug. 15, 1904.—Mr. I. V. Johnson, Roanoke, Va.—My Dear Mr. Johnson: I am glad to have your letter calling my attention to the publication placing me in an attitude of hostility to the laboring class. No one who knows me personally or is at all acquainted with the circumstances of my life will put any credence in the statements to which you refer. I think I can well claim that I belong to the laboring class. For many years I worked in the ranks as a wage earner and I know what it is to earn my living by the sweat of my brow.

On the other hand I have been a large employer of labor, in railroads, coal mines, lumber mills, etc., and have never had any serious trouble with our men. I can recall but two instances in which there were strikes, and these were of short duration and peaceably settled. No man has ever been discharged from our service because he was a union man, or been evicted from a company's house for any reason. I think you will find that the conditions of the railroad man and the miner in connection with the enterprises that I have directed will compare most favorably with those in other localities of the country.

I have always believed, and my experience came from the hard school of experience, that, measured by the character of the work he does and the cost of living, every man is entitled to the full compensation for his services.

I am charged with having instituted the proceedings which led to an injunction against strikers, by Judge Jackson, of this State. The fact is, I had nothing whatever to do with the case and knew nothing about the matter until I read of it in the newspapers. The injunction did not apply to the men in our company nor pertain to them in any way. On the contrary I remember on one occasion one of our superintendents suggested an injunction against our men and I declined to consider the matter.

RUNAWAYS GET CAUGHT,

Cynthiana, Ky., Aug. 18.—Officers Leech and Reese, after a two hours chase through corn fields, this morning arrested four young girls on the Dillie farm, one mile from town, who gave their names as Beulah Maybrier, aged eighteen, Paducah; Allene Featherstone, twenty, Henderson; Hattie Johnson, seventeen, Mayfield, and Nellie Tucker, eighteen, Paducah. They claim to have escaped from the Reform School at Lexington, last Saturday, and had been living in haystacks and stealing food since. They were placed in jail to await the coming of Lexington authorities.

DANGER OF GENERAL WAR.

Washington, Aug. 19.—Some apprehension has been expressed in other capitals that the apparent breaches of Chinese neutrality by Japanese may extend to the land operations of the hostile army. This feeling is not shared in Washington, and although the officials will not make public the sources of their information on this point there is reason to believe that they have been assured by both Japan and Russia that there will be no extension of the war field beyond Manchuria and perhaps Korea, which constituted the original theater.

The danger of a breach of neutrality so far as land operations are concerned is said to center at a point on the border between Manchuria and Chinese Mongolia, which would naturally be the place where Gen. Kurapatkin would seek to make his escape with his army in the event that the Japanese under Kuroki succeeded in executing the plan that is now afoot of surrounding him on the northeast and south, thus cutting him off from the Siberian railroad and his line of communication.

Apprehensive of this movement Yumanshi and Ma, the two famous Chinese Generals, with their foreign drilled troops, have concentrated an army of about 40,000 men in Mongolia, near the border, and it is feared that there may be clashes between these men and the Russian forces in the event of the retreat of the latter across the line.

An interview by Count Cassini, the Russian Ambassador, published in a New York paper this morning, attracted attention among the official class here, particularly because of the statement attributed to the Ambassador that by the seizure of the Ryesschint Japan has broken Chinese neutrality and has wrecked Secretary Hay's plan to limit the field of operations, and also to prevent a world war, by dragging into the conflict the allies of Japan and Russia.

Escaped An Awful Fate.

Mr. H. Higgins of Milbourne, Fla., writes, "My doctor told me I had Consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for Consumption, induced me to try it. Results were startling. I am now on the road to recovery and owe all to Dr. King's New Discovery. It surely saved my life." This great cure is guaranteed for all throat and lung diseases by Woods & Orme.

DRIVING OUT NEGROES.

Statesboro, Ga., Aug. 18.—The war being waged against the negroes results from the avowed determination of the whites to rid the community of a certain class of negroes whose presence render Statesboro and vicinity unsafe to the whites. Leading citizens are taking part in the crusade, and while these men for the most part regret the riotous condition extant and regret the burning of Cato and Reed, they are determined that the "Before Day Club," organized by vicious negroes for the purpose of murder and war on the whites shall be exterminated.

DAVIS IS NOTIFIED.

White Sulphur Springs, Va., Aug. 17.—Henry Gassaway Davis was formally notified today that he was nominated for Democratic vice president of the United States. Mr Davis accepted the nomination in a brief speech reviewing the political situation and echoing the sentiments of Judge Parker on the money question and expressing a determination to make a successful campaign. Hon John Sharp Williams, of Mississippi, Chairman of the notification committee, delivered the notification address. The day was an ideal one. Mountaineers and visitors from near by states were on hand. Perry Belmont represented the New York Democracy.

MAY TAKE THE STUMP.

Evansville, N. Y., Aug. 17.—Nearby every delegation arriving at Rensselaer from the west urge Judge Parker to go on a stump tour during the campaign and visit the beautiful states. This was the object of the visit today from G. V. Morris of Mt. Vernon, Ind. and John Speiser, of Evansville, Ind. So much encouragement was received that they remained over night at Judge Parker's home to discuss the subject of a western trip.

Judge Parker determined soon after his nomination by the St. Louis convention that he would conduct his personal campaign from Rensselaer, but since the notification ceremonies so much pressure has been brought to bear upon him that he has promised to give the invitations serious consideration.

WIFE WHIPS DAINTY WIDOW.

Evansville, Ind., Aug. 20.—Extremely jealous of her husband, David Mills, a local probation officer, Mrs. Mills attacked Mrs. Charles Stone, a pretty widow, whom she thought was winning the affections of her husband, and gave her a severe beating with a horsewhip today.

Mrs. Mills went to the home of the widow and calling her out she whipped her without mercy.

Mrs. Stone finally escaped, but not until the whip had been worn out. The women were arrested and had their trial in police court this morning.

Mrs. Stone says large welts were left on her back, neck, and arms. Both women are well known here. Mills has been prominent in politics for a number of years. The women were fined.

PREFERRED DEATH.

Hopkinsville, Ky., Aug. 17.—Desperate over the discovery of alleged forgeries she had committed, Miss Nell Clark, a beautiful Christian county girl, attempted suicide in her home near Crafton by swallowing a capsule of corrosive sublimate. There is scarcely a chance for her recovery. Miss Clark is a member of the oldest family in north Christian county and a granddaughter of Jno. Clark founder of the Universalist church in Kentucky. Last Saturday it was learned that checks for \$500 and \$30 on the account of Walter D. Bowles, a young farmer, cashed for her by the Bank of Hopkinsville were forgeries. The bank officials had the sheriff to arrest Clark Saturday night, but a compromise had been agreed upon.

PEARL HUNTERS.

The pearl industry is to be opened up on Green river. Thursday there was a man here from Illinois who went to the Kellogg hardware store to purchase some tools. While there he told Mr. Kellogg that he had been prospecting in Barren and Green rivers, and that the field was very inviting, especially on upper Green river, toward Mammoth Cave.

He will be joined here in a few days by a number of other men, and they will go to upper Green river and begin operations on a pretty extensive scale.

There can be no doubt but that plenty of pearls are to be found in Green river for many beautiful ones have already been found in these waters. There can be little doubt that these pearl hunters will make the business pay, as they seem to be thoroughly understood it and have been engaged in it for several years—Bowling Green Times-Journal.

YOUR KIDNEYS ARE THEY WELL?

Unless they are, good health is impossible.

Every drop of blood in the body passes through and is filtered by healthy kidneys every three minutes. Sound kidneys strain out the impurities from the blood, diseased kidneys do not, hence you are sick. FOLEY'S KIDNEY CURE makes the kidneys well so they will eliminate the poisons from the blood. It removes the cause of the many diseases resulting from disordered kidneys which have allowed your whole system to become poisoned.

Rheumatism, Bad Blood, Gout, Gravel, Dropsy, Inflammation of the Bladder, Diabetes and Bright's Disease, and many others, are all due to disordered kidneys. A simple test for kidney disease is to set aside your urine in a bottle or glass for twenty-four hours. If there is a sediment or a cloudy appearance, it indicates that your kidneys are diseased, and unless something is done they become more and more affected until Bright's Disease or Diabetes develops.

FOLEY'S KIDNEY CURE is the only preparation which will positively cure all forms of Kidney and Bladder troubles, and cure you permanently. It is a safe remedy and certain in results.

If You are a sufferer, take FOLEY'S KIDNEY CURE at once. It will make you well.

Some Pronounced Incurable

Mr. G. A. Stillson, a merchant of Tampico, Ill., writes: "FOLEY'S KIDNEY CURE is meeting with wonderful success. It has cured some cases here that physicians pronounced incurable. I myself am able to testify to its merits. My face today is a living picture of health and FOLEY'S KIDNEY CURE has made it such."

Had Lumbago and Kidney Trouble

Edward Huss, a well known business man of Salisbury, Mo., writes: "I wish to say for the benefit of others, that I was a sufferer from lumbago and kidney trouble, and all the remedies I took gave me no relief. I began to take FOLEY'S KIDNEY CURE, and after the use of three bottles I am cured."

DEMOCRATIC TICKET.

For President,
JUDGE ALTON B. PARKER,
Of New York.
For Vice-President,
HON. HENRY G. DAVIS,
Of West Virginia.
For Congress,
OLLIE M. JAMES.

At White Sulphur Springs, in West Virginia, August 17th, Hon. Henry G. Davis was notified of his nomination by the Democratic National Convention for the Vice Presidency of the United States. There were hundreds of people present from Virginia and the bordering States. Mr. Davis accepted the nomination in a plain, practical speech, devoid of rhetorical frills or useless verbiage. It was a speech alike worthy of the man and of the great party and principles for which he stands. Among other good things he paid the following beautiful and deserved tribute to Judge Alton B. Parker:

"I congratulate your committee and the constituency it represents in the selection by the delegates to the national convention of the nominee for the Presidency. He is a man of courage, yet prudent; of high ideas yet without pretense; of the most wholesome respect for the constitution and the majesty of the laws under it, and sacred regard for their limitations; of the keenest sense of justice which would rebel against turning a wrong to an individual to a nation; positive in tone, yet of few words; of great mental and moral attributes; yet, withal, modest and unassuming; a man of a sturdy, manly and magnificent manly character, yet temperate in his conduct; a man of dignified in his last of his."

The notification speech of Hon. John Sharp Williams, addressed to the Democratic Vice Presidential candidate was able, witty, sarcastic, and up to the full measure of the occasion. He gave President Roosevelt some pretty sharp wraps over the knuckle, and as this is to be a personal campaign his speech was strictly in line.

A fight to the finish is now on between the Chicago meat combine and their striking employees. Anything that breaks down the meat trust would be hailed with joy by a long suffering people.

THE TELEPHONE RIVALRY.

We learn from several sources that the Cumberland Telephone Co. and the People's Independent Telephone Co. are both to put in exchanges at Salem; also that the latter company will establish one at Lola, and one at Carrsville, and one at Tolu. This will be a great and needed convenience for all of these inland towns. The telephone when once used becomes a necessity. Here in Marion we have splendid service and connection with many outlying towns on the Marion exchange. At no other place we have ever been do the patrons enjoy so many privileges. The Cumberland people were recently refused the right to put in an exchange here, by the city council, but they have a toll station at Haynes' drug store, where persons who wish to talk to far away points can do so by paying the regular toll rates. So far as our local exchange is concerned all the towns need the People's telephone, for the reason that they have stations in most of the towns in this and Livingston counties, and exchanges at Smithland and Birdsview. The establishment of an exchange by each company in Salem will give that place the best of service—the "People's" for local and every day use, and the "Cumberland" when a long distance message is to be sent.

Tolu is in the richest section of this county and has a class of people who will utilize and enjoy such a great modern convenience. We congratulate our two neighboring cities on the early acquisition of this great invention which ties cities to cities, towns to towns, homes to homes, and "makes all the world close together," and which has done more to facilitate the handling of business than any other agency, and this locality is particularly fortunate in being able to reach all of the surrounding towns, extending into four counties, without toll charge, over the Peoples Independent Telephone line.

TO BE BONDED.

Kelley's Axe Factory to be Bonded for \$200,000.

This announcement will not interest many citizens of Marion, but those who happen to remember Wm Kelley's furnace near Eddyville, Lyon county, in ante bellum days will be startled at the magnitude to which the business born of his genius has grown. Kelley's axe factory is the greatest plant of the kind on the globe, and has grown from very unpretentious size to the most immense dimensions, covering acres and employing thousands of hands. The output is up in the millions and the demand apparently unlimited, their product going to the four quarters of the globe. Car-goes go to the Transvaal and the Argentine Republic. Train loads to the vast empire of the American West, and so on ad infinitum.

Wm Kelly, the founder of this was once a citizen of Eddyville, and while there invented the steel process which brought him wealth and renown, although it was patented simultaneously in Great Britain by Bessemer, a former employee of Kelly, having given the secret away. As evidence of the justice of Kelly's claims he was paid a royalty of \$10,000 a year by the British crown, and a handsome fortune as a reward for his invention by the United States government, four years after the patent was issued.

Kelley and his sons first used his steel invention in the manufacture of edged tools at Louisville. From there they moved to Alexandria, Ind with the discovery of gas. Now that gas is giving out in that field they seek a new field where fuel is cheap and go to West Virginia and locate at Charleston, on the Kanawha river. With coal on every side of them, new triumphs and dividends await them.

OLLIE JAMES

Says Parker Will Carry New York By A Big Majority

Washington, Aug. 23.—"I am sanguine that Parker will carry New York State, and that seems to be the opinion of the men who study politics dispassionately." This statement was made by Representative Ollie James, who has just returned from a trip East.

"Kentucky," he said, "is rightly estimated in the list of sure Democratic States. We will carry it for Parker by 25,000 majority. The outlook for the election of Judge Parker grows brighter and it will continue to improve as the campaign progresses."

Brooks and Laura Johnson, as teachers and Robert Wheeler and Mayfield Hughes, as trustees and John B. Paris as superintendent, was granted as to the teachers and in part as to the superintendent, after hearing arguments on both sides.

The case will be submitted at once to the court of appeals and will probably be decided in two or three weeks. In the meantime there will be no school and the belligerents will await the final decision.

NIAGARA AGAIN

The agitation against the destruction of Niagara Falls has reached and impressed the Governor of New York and is reflected in his veto of the bill enlarging the scope and powers of the Niagara Lockport and Ontario Power Company.

One point made by the Governor in his memorandum is that while the bill is desired by the immediate locality concerned, he is convinced that the State at large almost universally disapproves it. This is as far as he could go in his executive capacity, but he might have said, with exact truth, that the whole American public, and indeed, the civilized world disapproves it.

The Governor says, "The legislature should protect the falls, rather than increase the menace to which I have referred, by restricting those corporations which are already in possession, by compelling the removal of obstructions and unsightly structures which mar the beauty of Niagara." It is to be hoped that this executive opinion will ripen into action.

SHE WAS AND IS A BIRD.

The Shelbyville, Ky., Gazette makes truthful, record of an interesting aviary in its neighborhood. A Miss Bird first married a Mr. Martin; then in due order, Providence pointing the way, a Mr. Robin, a Mr. Crow and a Mr. Buzzard. In her nest there are gathered together one Martin, two crows, one Robin and one Buzzard. Next!

TATTLINGS OF A RETIRED POLITICIAN

Brilliant in satire, sparkling in wit, abounding in epigrams, anecdotes and stories that will be repeated whenever a stump speech is made in the great political campaign now at hand.

For the general reader it is a well-spring of literary delight; for the active politician an indispensable counselor and guide; for the stump speaker an arsenal of inspiration from which he may draw "ammunition" of the deadliest sort.

PEPPER AND SALT

It is of great importance to you as well as to those with whom you associate in business or social life that your speech be always kindly and without bitterness or malice or unlovingness in any form whatever. You should be very careful to speak truly, reverently and helpfully.

Speech is, as it were, the seasoning of life.

Love is the salt and truth of the soul, which makes life pleasant and agreeable and happy for one and all.

Some people use pepper instead of salt and pepper is sharp and biting. Their speech is full of sarcasm, of censure, of bitterness composed of words that burn and hurt.

Let us be careful to avoid the pepper, but sprinkle our conversation liberally with the salt of truth and love which is the sunshine way—Exchange.

FAVORS PARKER

Astrologer Finds That Plans Indicate Judge's Election.

A Chicago astrologer, A. E. Baumgart, reads in the stars that Judge Parker will be elected President. Here is his forecast:

"President Roosevelt was nominated on June 23 at 1:19 p. m., Chicago, standard time.

"Judge Parker was nominated July 9 at 5:50 a. m., St. Louis, Mo.

"It would be unsafe to choose a winner without a careful examination of the individual horoscopes of the candidates, their time of birth not being accurately known.

A comparison of the horoscopes made for the moment each candidate was nominated shows some interesting facts.

"President Roosevelt was nominated under conditions that are evil and conflicting. There are strong indications that religious agitation of some kind will play an important part in the campaign and that foreign influences of a character unknown to previous campaigns will play an important part, and may seriously impair the prospects of the Republican candidate, if not actually defeat him.

"The Democratic horoscope appears the more fortunate of the two, and favors the election of Judge Parker. The party will be seriously annoyed by treacherous and incompetent subordinates, and will be seriously harassed by underhand schemes and secret tactics.

"The President's horoscope shows serious afflictions the present year and will have a strong opposition to contend with. Furthermore, both candidates were nominated under conditions in which the eccentric and erratic planet Uranus plays an important part. There are strong probabilities that the campaign will develop conditions which will upset all calculations, resulting in a state of affairs entirely unknown in American politics.

FIFTY YEARS

with a small beginning this firm has grown until our factories now cover many acres. Some of our machines sold fifty years ago are still giving faithful service.

The last of the great sewing machine wars was fought by Mrs. J. C. Wheeler & Wilson.

This Rotary Hook, a distinctive feature, originated with this machine, operates in one continuous driving motion. Compared to a Bridgman it works on exactly the same principle as the circular motion, but in contradistinction to this it does not cut saw. The work that can be accomplished, the speed and convenience of operation, all features that have combined to give this machine its present enviable prestige.

Stories That Travel,

A man seven feet in height is to stump Ohio for Roosevelt. He will possess one desirable advantage over the shorter spell-binders—not so apt to put his foot in his mouth every time he opens it like Teddy does.

A Kansas paper points it out as a remarkable fact that a peanut was found inside of an egg laid by a Kansas hen. It would be far more remarkable to find an egg laid by a Kansas hen inside of a peanut.

A late photo of Theodore Roosevelt shows him with his teeth buried in a big slice of watermelon. He evidently desires to make assurance of the colored vote doubly sure.

An Indiana jury has awarded a woman \$6,000 for six stolen kisses. The defendant in the case no doubt regrets that he made such a hog of himself when he might have been able to worry along with but one.

It was simply terrible, that a young man was struck blind on the beach at Atlantic City, right where young men mostly prize good sight.

Scientists have discovered a mixture that will kill mosquitoes and are now endeavoring to determine whether it will be better to administer it with a spoon or as a hypodermic injection.

The manager of Bishop Potter's new church saloon may advance the claim that "the old ship of Zion" was a schooner.

A Southern editor describes the net-work waist as "a whole lot of peep holes sewed together."

Warts on her fingers, corns on her toes, she will be miserable wherever she goes, unless she uses Dr. Mendenhall's Corn Cure. 15 cents at druggists or sent by mail on receipt of price by C. Mendenhall, Evansville, Ind.

A SAD AFFAIR

Basily all the morning long had she who worked away in the modest, yet tidy kitchen sometimes humming a bit of an old time favorite song and her face facsimile of peace and love. But suddenly she looked up at the clock and a frown settled upon that serene face. How could she have forgotten herself! It was now half past eleven o'clock and dinner would be expected in half an hour. That determined look settled deeper upon her face. Suddenly she sprang up, seized a knife from the table turned a piercing gaze upon the innocent little beings that had set near her feet all the morning then with a firm grasp she seized one of them and carved the skin from its little body. She then turned the point of the knife and without the least show of mercy, gouged the eyes completely from their sockets. Not yet contented with the deed she had committed she turned the keen edge of the blade across the helpless little body and sliced it into a dozen pieces! But, reader don't condemn her for murder, she was only hastily preparing potatoes.—Ex.

A BIG REVIVAL.

A big revival has recently closed at New Union church, Livingston county, Ky.

Rev. A. W. Dutton has been selected as pastor of this church for the present year, and he has been preaching with power and with demonstration of God's mercy to those who are in darkness and bringing them into divine light; and by the power of God and the help of His divine grace there were 41 souls brought to Christ.

Brother Dutton commenced the meeting July 23d, during the deacons meeting and carried on one week, when he was compelled to leave, and other brethren continued it a week longer.

There were seventeen additions to New Union church and there are others who will join the 4th Sunday in August. The baptizing will take place Aug. 28. There has been a glorious awakening for good in this region.

Following are the names of those professing faith in Christ: Fannie Mathews, Ada Vaughn, Cathrine Vaughn, Annie Watson, Arthur Singleton, Cora Watson, Bent Monroe, A. D. RAGIC DEATH.

Messenger: One of the most terrible accidents ever happened on the main route was the killing of Hoback and Harvey Allen, two young men, four miles west of this city, at midnight Sunday. They were evidently sleeping by the side of the track, using the rail as a pillow. Their heads were crushed, while the remainder of their bodies were uninjured. Both Hoback and Allen lived at Bon Harbor mines. Hoback was a son of Lewis Hoback, owner of the mines, and Allen was a son of Henry Allen and was employed in the office at the mines.

The bodies were found early Sunday morning, by an employee of the road. They were stretched by the side of the track and had apparently been hardly moved by the passing train. It is certain that they were killed by the midnight passenger train west bound.

The young men went to a dance Saturday night at the home of J. W. Cole, near Mattingly's distillery, where they spent the evening. Members of the Cole family say the young men left the house a few minutes after 11 o'clock. The bodies were a mile and a half from the Cole home, and it was evident the boys had sat for some time beside the track. A number of cigarette stumps and a quantity of tobacco juice were beside the track where they had sat. Evidently they became sleepy and probably unconsciously lay down with their heads on the track. They could not have been in this position many minutes when the train came.

Coroner Hayden was notified as soon as the bodies were found and repaired to the scene at once and held an inquest. A verdict was returned in accordance with the facts.

Violent Attack of Diarrhoea Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy and Perhaps a Life Saved.

"A short time ago I was taken with a violent attack of diarrhoea and believe I would have died if I had not gotten relief," says John J. Patton, a leading citizen of Patton, Ala. "A friend recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. I bought a twenty-five cent bottle and after taking three doses it was entirely cured. I consider it the best remedy in the world for bowel complaints. For sale by Woods & Orme, Druggists.

ONE OF Uncle Sam's Soldiers CURED OF

blood poisoning

BY

FOERG'S REMEDY

Sergeant J. S. Smith of Company L, 12th Infantry, during service in the Philippines from 1899 to 1902 contracted a severe case of blood poisoning. He tried many remedies and treatments upon his return to the United States without any benefit, until **FOERG'S REMEDY** was strongly recommended to him. The use of four bottles absolutely cured him. If you doubt this write to him, addressing J. S. Smith, care St. George Hotel, Evansville, Ind., and ask if this is not true.

If **FOERG'S REMEDY** has cured him why not you? Why do you go on suffering the mental tortures of the damned when you know there is a cure certain and sure. Is a cure not worth \$5.00 to you? That is all it will cost, for we absolutely guarantee six bottles at a cost of \$5.00 to cure the worst cases of specific blood poisoning. Think of the joy to you in the return of perfect clean health, and go at once to the below address and get this wonderful remedy. It is manufactured by

OBITUARY.

Little Geneva Riley closed her eyes in death on Sunday morning, July 24th, aged 3 years.

On Thursday evening, at 10:30 o'clock, Aug. 4th, little Homa passed away, aged 11 months.

Our darling little loved ones have gone from us to heaven, and they are now in the arms of our Saviour, where we know they are blessed. It is so hard to give up our darlings forever. We know they can not come to us but we can go to them. When those darling babies left us the light went out from our home.

Oh, how lonely it seems to us when we leave our home and come back, no little Geneva to meet us at the door with a kiss; no little song to cheer all sorrow from the heart; no loving little voice singing so soft and modest, "My train shall be on time." No little Homa to meet us with a smile; he could not talk or sing, but his sweet little smile we never can forget.

They were our darling little babies and they were laid side by side beneath the sod with roses in their hands, nestling sweetly with God.

We look at mamma's sad face, papa's heavy heart, the vacant chair and cradle, but we can only say, farewell, we will meet you in the sweet by and by.

Over the river they beckon to me, Loved ones who've crossed to the farther side,

The gleam of their snowy robes I see,

But their voices are lost in the dashing tide;

There two with ringlets of shining gold

And eyes the reflection of heaven's own blue,

Has carried in the twilight, gray and cold

And the pale mist hid them from mortal view.

We saw not the angels that met them there,

The gates of the city we could not see.

Over the river my brother, my sister are waiting for me.

They carried on the bosom a dimpled hand

And they fearlessly joined the angel band,

We know they are safe on the other side,

Where all the ransomed and angel's abide,

I shall know our loved ones, gone before.

And joyfully sweet will the meeting be;

When over the river, the peaceful river,

The angel of death shall carry me
Lillie Riley.

THE CALL.

(Chicago Tribune.)
Came Mrs. Brown to call
On little Mrs. Jones.
They greeted in the hall
In most delighted tones.
'So rushed,' said Mrs. Brown.
'I really cannot stay—
I've been all over town,
It seems to me today.'

And then they talked of books,
Of music and of clubs,
Of chambermaids and cooks,
Of leaky laundry tubs,
Of candies and of soup,
Of churches and of gowns,
Of fevers and of croup,
Of how to ward off frowns.

Of wrinkles, freckles, too;
Of divorces and brides,
Of scandals old and new,
Of fashion's latest strides,
Of neighbors and of friends,
Of enemies and of kin,
Of pleasing coffee blends,
Of where "she" got that pin.

Of certain people's debts,
Of certain people's fights,
Of the contending sets,
Of certain women's spites,
Of papering the hall,
Of which each one had read,
Of which one owed the call,
Of what somebody said.

Of how "she" held her looks,
Of golf, and cards and tea,
Then back again to cooks—
And then, "Oh, goodness me!"
Cried Mrs. Brown at last,
'I must be running on.
The afternoon is past—
At least it's almost gone.'

"That's one thing I detest
About a formal call—
One has to look her best
And scarcely talk at all.
Stop in, my dear, some day
When you're out for a walk—
There's so much we could say
When we've time for a talk."
—W. D. N.

Wood and Iron Wheel Carried Two Hundred Miles Down the Ohio River.

A queer coincidence, showing the vagaries of the current of the Ohio river, was proven this week, says the Hawesville Plaindealer.

About twelve years ago a company was formed here to prospect for oil and a couple of deep holes were sunk just above the town limits. A piece of material known as a "bull wheel" was used and fell into disuse with the rest of the machinery and remained as a piece of rubbish until a few weeks ago, when it disappeared. The wheel was made of wood and iron and braved the tide of the river all these years. About a month ago a company, in which Hawesville and Cloverport men are interested, began prospecting for lead near Golconda, Ill. Some of the same men interested there were interested in the oil wells here and their money built the wheel in question.

About ten days ago this same wheel was found in the river at Golconda resting on the shore or property now owned and operated by the people who built it here more than a decade ago. It is passing strange, to say the least, that a piece of machinery should float so far, and more strange that it should find a stopping place on territory belonging to its former owners and builders. The distance is more than 200 miles.

The Kind You Have Always Bought
Bears the Signature of *Dr. J. C. Ayer*

Recollections of a Mosby Guerrilla, we understand, is the title of a new serial which is to begin in the September number of Munsey's Magazine, and promises to be the most interesting and stirring contribution to the history of the Civil War that has yet been handed down to us from that eventful period. The author, John W. Munson, was a member of Mosby's famous Partisan Rangers. Mr. Munson takes up his story from the day he began his tramp from Richmond one hundred and twenty miles to the Blue Ridge Mountains, where he joined the Mosby Band at the residence of Mr. Blackwell, near Manassas Station, in 1863, and carries it to the close of the war describing all of the sensational fights, raids, hand to hand conflicts and engagements that befell the little band, which no time numbered over three hundred men. Heretofore unpublished pictures will illustrate each instalment.

VISITORS WORLD'S FAIR HOTEL.

The Visitors' World's Fair Hotel has for its purpose a location absolutely unsurpassed. It is unique and unlike any others in this, that it is near the Main Entrance and the principal Fair buildings and the center of attraction, and, at the same time, removed from the noise and confusion of the streets. It is located at the highest point of the city, in the center of a grove, two whole blocks in extent, surrounded by trees, green-houses and shrubbery, insuring quiet and rest after a day's sight-seeing.

It is directly opposite Washington Terrace and Bell Place, the beautiful residence district, and it seems as if nature, art and circumstances had combined to make this the ideal World's Fair site for a hotel or home.

Street cars pass the entrance to our Grove every two minutes from Union Station and all parts of the city. Visitors coming via the Rock Island, Wabash, or the Kansas City & Colorado Railroads are landed at World's Fair Terminal at the main entrance, near our hotel. The Wabash will run special trains every few minutes from the Union Depot to this Terminal.

The building is provided with modern conveniences. It has a roof garden and a splendid Observation Tower, overlooking the city, Fair and illumination presenting a view ideally beautiful.

During the summer months the cool southwest winds, laden with the aroma of the trees and flowers of the grove, reach you, and, in the evening, the large roof garden is a favorite meeting place for recreation, sociables, concerts, lectures and entertainments.

The building is but two stories high and is lighted with electricity throughout, and the sanitary plumbing is of the most improved type. Each room faces the outside, has call bell and rooms are large, light and airy. Long distance telephone enables members to communicate with friends everywhere.

The dining room is tastefully and daintily arranged, and everything is absolutely new and fresh from foundation to roof.

Sick Headache.

"For several years my wife was troubled with what physicians called sick headache of a very severe character. She doctored with several eminent physicians and at great expense, only to grow worse until she was unable to do any kind of work. About a year ago she began taking Chamberlain's Stomach and Liver Tablets and today weighs more than she ever did before and is real well," says Mr. Geo. E. Wright, of New London, New York.

For sale by Woods & Orme, Druggists.

For The House-keeper.

Exclusive ability and originality are the two secrets of successful hospitality, and the limitation of the purse need not keep one from the attainment of this purpose, says Eleanor Marchant in the September Delineator, and in proof thereof gives a number of original plans that will prove the maximum of entertainment at the minimum of expense. A unique popcorn party, a home picnic, supper or luncheon served in true outdoor style and a peach fete are some of the suggestions. In the same number are given refreshments for a garden party, and among the culinary topics are various receipts for egg-plant and oyster plant, and for sweet sandwiches and frozen desserts.

Kentucky News.

Lang Bros. Druggists, Paducah, Ky., write: "We sell more of Dr. Mendenhall's Chill and Fever Cure than all other remedies combined. Having retailed over 700 bottles in one season. The physicians here prescribe it and persons who use it once will have no other." Children like it.

CHAPEL HILL.

The health of our community is fairly good.

We have had a good rain and the faces of our neighbors have begun to straighten up and look natural again.

James Fowler sold some fair stock hogs to Corry Minner; price 5 cents.

Also sold to Ford a fine bunch of the same.

Tom Dollins, from Marion, was through this beat one day last week.

One of the largest gatherings we have witnessed in Chapel Hill in several years was at Mr Corry Minner's last Saturday night; ice cream and watermelons were the attraction, and young and old were there. The crowd was well entertained by Mr Minner and wife, ice cream and watermelons were abundant, and all went home feeling that it was good to have been there.

B F Walker has returned home from a visit to his son, J H Walker, of Lewistown.

We are for Alton C. Parker and Henry G. Davis, first, last and all the time; paste this in your hat, please.

Bro A J Thompson and daughter Ruth, of Kuttawa, are guests of many friends in our precinct.

Lawrence Orider and wife, of Marion, are the honored guests of H S Hill's family.

Harry Vaughn from below Marion is visiting his aunt, Mrs Lee Hughes of this place.

Our precinct is blessed with watermelons and cantaloupes, and every fellow is trying to outsell the other fellow.

Frank Crayne and family, from Midway, are guests of Charlie Clement Sunday.

Tobacco in this precinct is looking well; it is all topped and secured, and is spreading out nicely. It is better than last year at this time, larger and more of a uniform size.

Our cemetery at Chapel Hill will be cleaned off next Tuesday, and I want to speak a word for our new cemetery; we have got one of the nicest little burial grounds for burial purposes that I know of, all fenced in with wire, and it is a model.

W L Adams was at church Sunday to hear Brother Thompson, which was worth hearing to any one who believes the Word of God.

STARR.

Mrs Sarah A. Hamby, of Ills., has purchased Elvis Andrews' place and moved to this community.

Sam Stovall talks of going to Kansas.

The protracted meeting commences at Piney creek church the first Sunday in Sept.

O H Paris' saw mill is doing a lively business.

Rev J T Barbee did most of the preaching at the camp meeting.

A few of our people are going to the Hurricane meeting.

School commenced Monday.

The camp meeting has come and gone. Lasted about four days. There was a big crowd here Sunday.

Bert Bradley and Harve Vinson have returned from Washington.

Albert Wilson, who left here twelve years ago and went to Kansas, is visiting friends in this section.

Ed and Henry Hunt of Kansas, are calling on friends in these parts. Ed may spend two or three months with us.

S D Jacobs talks of going to Washington.

Pressley Jacobs' wife died at her home in Paducah and was brought here and buried in the cemetery at this place. She leaves a husband and one child to mourn her loss.

Miss Ollie Brasswell, of Marion is visiting friends here.

We have had a fine rain and all feel better.

From what we can learn, some of the boys got badly left in the stand business during the camp meeting.

J L Corley and family, of Missouri, are visiting relatives in this section.

RODNEY.

S C Towery of Shady Grove, was in this neighborhood last week. On his way home, between here and Mattoon, while drying up a hill his horse suddenly stumbled and fell to the ground. Mr. Towery jumped out of his buggy to see what the matter was, and found the horse dead. The horse

was a beautiful looking animal and was highly prized by Mr Towery.

Miss Clara Nunn began her school at Baker Monday.

Lacey Truitt and E M Gahagan have returned home from the World's Fair.

Rice Duncan and family went to Sturgis Saturday.

A good deal of the hay crop has been baled in this section.

Chester Truitt attended the ice cream supper at Weston Saturday night.

Tom and Finis Chandler were in Marion Monday.

George Gahagan and wife are on the sick list.

She Baker meeting began Sunday.

W S Hicklin and family, of Marion, were here Sunday.

They worked the road here last Monday.

FREDONIA AND KELSEY.

Misses Georgie and Lucie Garner of Sturgis visited friends here last week.

W F Bennett of Paducah, was visiting his parents here last week.

W D Browning was here Wednesday.

John Cliff and wife are spending the week at St. Louis. They will also visit relatives in Kansas before they return.

Miss Minnie Brasher, of Caldwell springs, was the guest of Lena Conger last week.

Tom Wring was in this vicinity last week.

The Ray & Lowery Hardware Co have sold out to a Mr Howard of Brandenburg, Ky. Milton Maxwell will assist Mr Howard and the business will be continued at the old stand.

Mr Larkin, who has been our depot agent for a long time, is moving to Indiana.

Tom Ordway and Tom Bugg started for St. Louis Tuesday, they will be gone several days.

NEW SALEM.

Our sick this week are Mrs. Wm Kirk, Kessie Tyner and Mrs. Addie Wolford.

E. L. Franklin and wife, of Salem, were the guests of Samuel Wolford's family Sunday.

Harry Harpending arrived from Missouri last week.

Thomas Austier, of Bay City, Ill., is visiting his son Harris this week.

A surprise in the way of a birth day party came to Samuel Wolford and wife Sunday. Despite the rain their children and grandchildren began to arrive at an early hour, all with well filled baskets and at noon one of the finest dinners was spread that it was ever your correspondent's good luck to sit down to—a regular feast.

The Bernard mines, with David Wolford as manager, put in a new steam hoist on the Ebbey Hodge property last week.

The meeting closed at Childress school house Thursday night. They had a good meeting and several conversions.

The Tyner's Chapel people are preparing to put an iron fence around their cemetery.

John Templeman, of Princeton, was in this section last week working upon exchange for the Cumberland Telephone Co. He secured the required number of subscribers and work will begin at once. The company gives the farmers around Salem a chance to receive some benefit from the telephone service.

Ice cream supper at Bill Conyer's Saturday night, also music by the Garnet boys.

GRAYNEVILLE.

A good rain. Great many attended church at Chapel Hill Sunday from this place.

Ora Bebout gave an ice cream and watermelon eating at Corry Minner's and there was a lovely time.

Miss Bertie Thurman went to Sturgis Saturday.

Dr O C Cook went to Clay last Friday.

Mrs E E Crayne and daughter Nona visited John Crayne's Saturday and Sunday.

Mr Gilbert and wife, of Rockcastle visited J M McCaslin and family Sunday.

Miss Maud Freeman, of Missouri, is visiting friends and relatives.

FRANCES.

The rain was indeed a good one and many "nubbins" were spoiled thereby.

Last week was one of accidents to our people. Mrs G W Parrish suffered from a dislocated wrist, caused by an overturning buggy; J C Taft fell 80 feet into a mining shaft and sustained some serious injuries. Raymond Fox has a dislocated knee joint, the result of a baseball game.

Dr F C Coffield, Ky., has located here and is enjoying a good practice.

H T Pogue spent Sunday with friends (?) at Lola.

Elmer Parish has returned from a two weeks stay at Dawson, very much benefited.

Frances school opened Monday with a large attendance. M. F. Pogue principal; Miss Myrtle Parish assistant.

We are sorry to announce the death of Collin Stephenson, sixteen year old son of Mr. G. A. Stephenson. He had been afflicted for nearly three years with the rheumatism. Collin was a good boy and will be sadly missed by his school mates and many young friends, with whom he was very popular.

Love Story.

A romance running back a score of years is behind the marriage of Miss Lucy Jane Work, of Booneville, Ind., and George Fletcher in Evansville last night, at which Rev. T. A. Pedgett, of the Olive street Presbyterian church officiated.

Twenty years ago Filbert and Miss Work became engaged. His fortune prevented their marriage. Filbert went to Kansas and earned considerable money, while she went to Booneville, Ind., and engaged in literary work. Finally Filbert returned to Linton, Ind., and engaged in business. In his pursuit of wealth he had almost forgotten his sweetheart of his younger days. A few days ago he went to Chicago on business, and while in a hotel picked up a paper that contained a little love story, entitled "The Broken Lyre." It was written by Lucy Jane Work, the sweetheart of the days of long ago. He lost no time writing to Miss Worth, and the day was set. They will live in Chicago.

HEALTH

"I don't think we could keep house without Theford's Black-Draught. We have used it in the family for over two years with the best of results. I have not had a doctor in the house for that length of time. It is a doctor in itself and always ready to make a person well and happy."—JAMES HALL, Jacksonville, Ill.

Because this great medicine relieves stomach pains, cures the constipated bowels and invigorates the torpid liver and weakens kidneys.

No DOCTOR

is necessary in the home where Theford's Black-Draught is kept. Families living in the country, miles from any physician, have been kept in health for years with this medicine as their only doctor. Theford's Black-Draught cures biliousness, dyspepsia, colds, chills and fever, bad blood, headaches, diarrhoea, constipation, colic and almost every other ailment because the stomach, bowels, liver and kidneys so nearly control the health.
